SPACES LIMITED – SECURE YOUR CHILD’S SPOT TODAY!

# The Ultimate Creative Summer Experience!

Three weeks of Endless Making! Unforgettable.

**Play Island Lab is not your average summer camp!** This is where boys and girls ages 3 to 13 come to build, craft, design, and create, on their own terms, in their own style, with zero limits on imagination!

There's a little of everything kids love here. Hands-on crafting, STEM challenges, outdoor games, and the kind of nonstop fun that makes summer actually feel like summer. Whatever your child is into, they'll find their "thing" here.

Every week brings a brand new theme, every day holds a fresh surprise, and every camper goes home with something they made with their own hands. Our energetic counselors keep the creativity flowing, the energy high, and the excitement going all day long.

Across three action-packed weeks, campers dive into real maker-space experiences unlike anything they've tried before, and older campers ages 8 to 13 unlock next-level projects they'll show off long after summer ends.

## Theme Descriptions

**Maker Mania** is where big ideas become real things! Each day, the Creative Design Lab fills up with hands-on projects that help campers discover new techniques and create something truly their own. Older campers take it further at the Design Bar, where trend-forward crafts and fun wearables keep the excitement going all week. And slime? It's back, by popular demand, and better than ever! This year, we're introducing new textures, unique scents, and a surprise reveal no one will see coming!

Week Two turns the creative energy all the way up. **Cre8tive Chaos** is the week where self-expression runs the show! Campers dive into mixed-media art projects, hands-on crafts, and experiences designed to pull out the creativity. The Customization Station opens its doors this week, giving campers the chance to put their personal stamp on projects, ranging from hands-on craft builds to creations that use real equipment and technology.

**Build It To Win It!** is a full week of challenges, competitions, and creative showdowns, each one more exciting than the last! Campers go head-to-head and team up in a series of build battles and invention challenges designed to push their thinking, spark their problem-solving, and keep them on the edge of their seats from Monday to Friday.

The week builds toward the Play Island Lab Championship, our end-of-summer celebration where campers bring everything they've got in one final, epic showdown! Surprises, prizes, and seriously proud moments included.

Cost \$250.00 per week (includes STEM+Maker experiences, customized projects, premium supplies).
